Project Information

Project Name or Project/ Program Title	Auburn Blvd. Streetscape Motel Voucher Program Mather Homeless Center	Activity Codes (NAICS or NTEE-NPC) (up to 10)
Quarterly Activities/ Project Description	The Auburn Boulevard Streetscape project is an existing project supported with annual CDBG entitlement funds. CDBG-R is intended to invest in transportation and/or other infrastructure projects that will provide a long-term economic benefit. CDBG-R specifically recommends grantees identify activities previously approved to receive funding from its regular 2009 CDBG allocation and consider whether activities could be accelerated by being funded with CDBG-R. The Auburn Boulevard project meets this requirement. In the second quarter of 2012, the Auburn Boulevard Streetscape project (between Bell Street and Fulton Avenue) installed the median monument and pavers at Bell Street; installed the tubular fence on top of the barrier wall; installed the decorative horses on the fence; installed the Route 40 signs on the barrier wall; installed the concrete between the barrier and the curb and gutter along the north side of the roadway; installed the Blade Signs, pavers around the bases, and electrical connections; installed the Archway over Fulton Avenue including the electrical connection; and installed the sections of curb and gutter section along the south side of Auburn Boulevard. The construction began on September 12, 2011 and will be extended to July 26, 2012. All CDBG - R funds have been spent. Total Federal Amount ARRA Funds Received/ Invoiced 1567415.00

Number of Jobs 1.55

Description of Jobs Created No new jobs created
This Auburn Boulevard Streetscape project is a catalyst project to develop the Boulevard to promote economic development.

Total Federal Amount of ARRA Expenditure 1567415.00

Total Federal ARRA Infrastructure Expenditure 1377431.71

Infrastructure Purpose and Rationale The Auburn Boulevard Streetscape project provides investments needed to increase economic efficiency and investments in transportation that will provide long-term economic benefits. Streetscape projects typically also create additional benefits of improved mobility, which reduce travel time for commutes, reduce congestion by providing an opportunity for alternative modes of transit that equate to less energy use and air pollution.
