***The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

SERA2 Spotlight

Good morning, I wanted to take a moment to really express my appreciation for you. I know you must be swamped right now and dealing with a lot of not so happy people. Your hard work and dedication to helping people impacted me in a positive way. I completed the things needed to be done. Huge weight lifted! So again, Thank you for your help, hard work and dedication to the public. Stay healthy and stay well. - Kelly (Tenant)
