\*\*\*The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

# SERA2 Spotlight

Thank you so much for being a advocate in us staying in our home. We thank you so much in this time of need. The pandemic really hit us hard being a widowed mother of 3, also a cancer survivor and a medical assistant. God bless you all for the great love and support it will forever be in our hearts. - Esther (Tenant)
