Meals and Bed Nights:

Each week the on-site service provider reviews data and makes corrections. These corrections can only be reflected on the next report in the PYTD total.

*Maximum Occupancy:

Each week the occupancy will incrementally increase in accordance with COVID restrictions and with consideration for the safety and well being of the Guests and Staff until 100 Guest maximum occupancy is achieved.

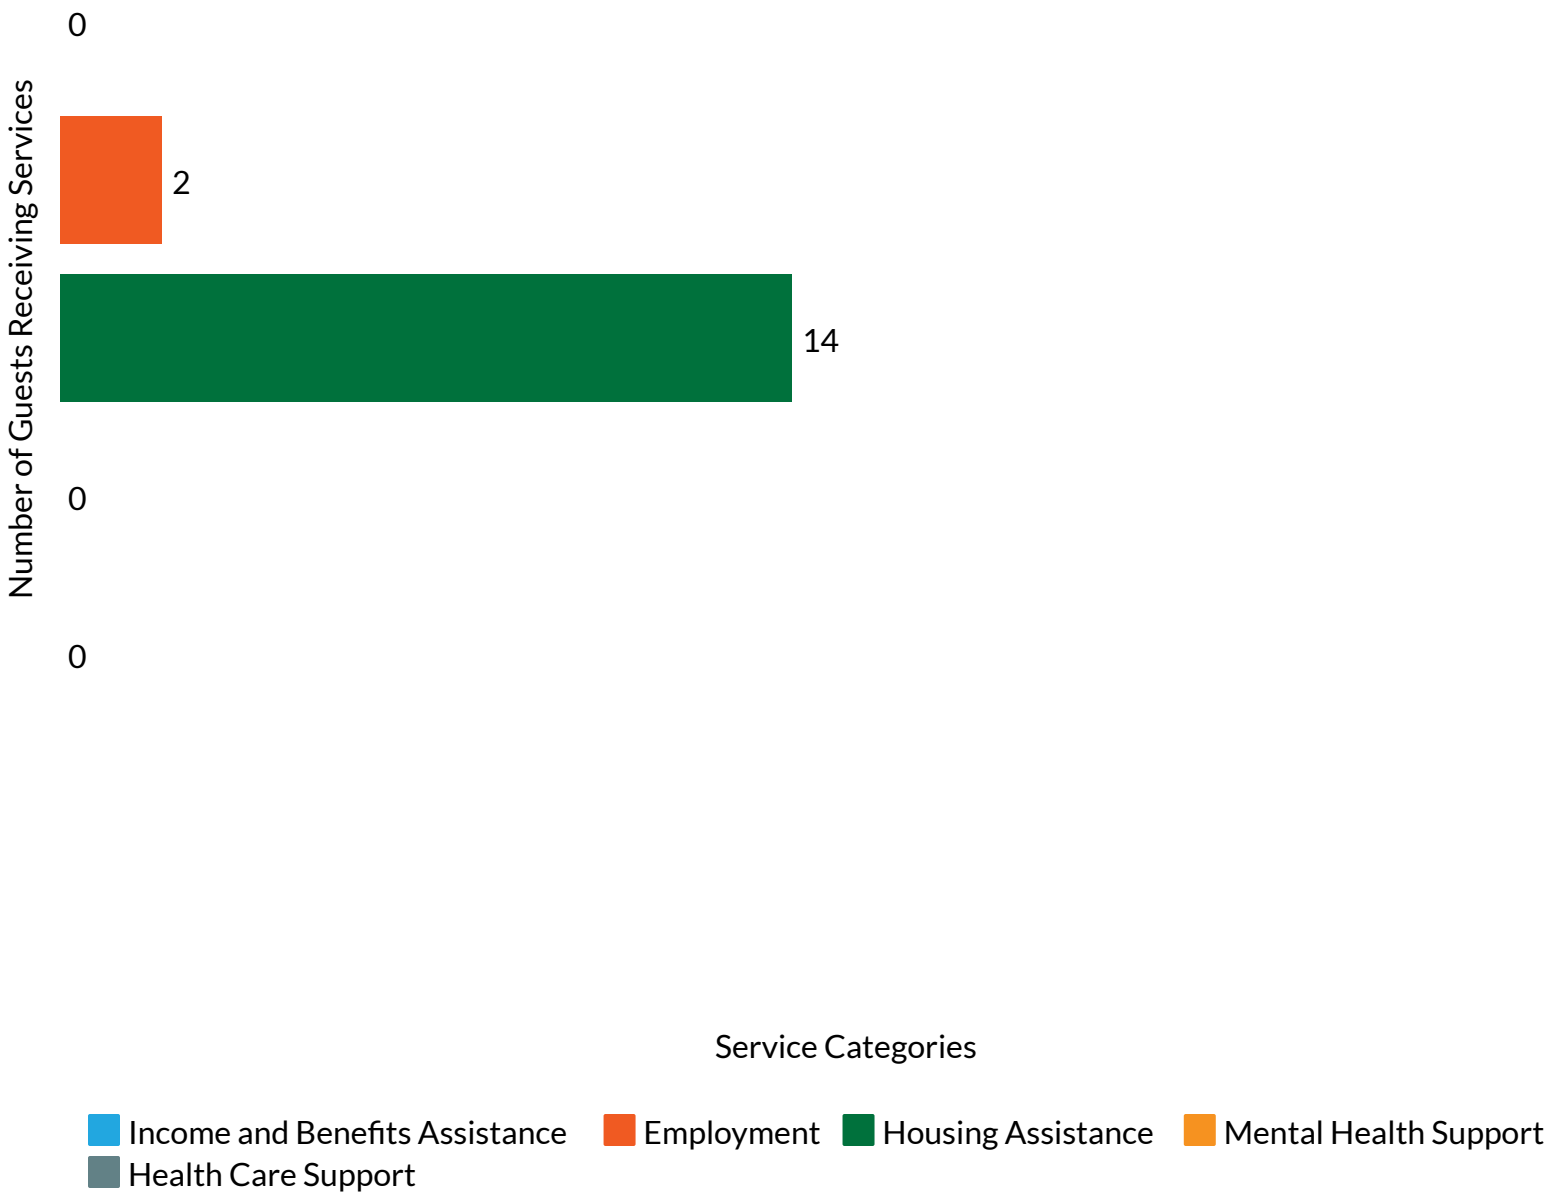

Previous Zip Codes

Previous Zip Codes:

The Guest self-reports in the Shelter Survey the location of where they resided prior to entry into the shelter. The individual zip code counts may increase/decrease without proper accounting from the prior weekly totals in the PYTD section. This is due to a delay in the verification of a Guest's prior address. Without a verified address the Guest is placed temporarily with a zip code tied to the area reported. Once an address is verified, the update is recorded on the next report.

Weekly Service Summary

Each Service Category is comprised of a multitude of services that are available to the Guests. A Guest may receive multiple services recorded under one category based on their need. The total count of possible Guests will reflect the fluctuation of all Guests throughout the time frame captured, which may surpass the end of week "in-house count".

Weekly Workshops

The total count of possible Guests will reflect the fluctuation of all Guests throughout the time frame captured, which may surpass the end of week "in-house count".
