Bar graph showing the number of disbursed applications by household size for City and County.
The SERA2 Program is utilizing the Centers for Disease Control and Prevention’s (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.
You’ll never know how much you’ve helped me through this terrible time! I start working soon and cannot wait to start living a normal life again!
