\*\*\*The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

# SERA2 Spotlight

I would like to say a sincere thanks to you and your organisation (SERA2) for your assistance with paying my outstanding rent...

This pandemic has hit hard with many periods of anxieties and worries. This program has been of tremendous benefit. It was truly answered prayers. A year ago I was staring homelessness in the face and you have certainly helped me to get to this period to date with a roof over my head. I don't know what tomorrow will bring but I am trusting God to continue to hold my hands. In the meantime I am truly grateful for your assistance, guidance and support. - Tenant
