***The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

SERA Spotlight

"I just wanted to send SHRA a thank you note for assisting me during this process and paying off my past due rent. I thank the Lord for all that you all are doing. I'm sure your jobs can be a bit stressful, but, please believe that what SHRA is doing is truly life changing; help keep families in their homes and away from homelessness. You all are appreciated... God bless you all. Have a blessed week." - Tenant
