The SERA2 Program is utilizing the Centers for Disease Control and Prevention’s (CDC) Social Vulnerability Index (SVI), which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.
Good morning, I am writing to say thank you for being patient and kind during the most stressful part of my year...Getting behind on my rent and facing eviction was rough, but I want to say thank you for being patient with me. Thank you for showing human compassion even through electronic devices. Please continue to show your grace onto to others, sometimes, you will be the only angel we see. - Tenant
