***The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

SERA Spotlight

"The SERA program saved my life if not for this program I would be homeless. I am elderly with health issues requiring me to be on oxygen 24 hrs a day and without a home I would be unable to continue my treatment. Thank you from the bottom of my heart this program is a true blessing." ~ Tenant
