\*\*\*The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

# SERA Spotlight

"SERA helped pay my rent during a crisis I was going through. I was battling Breast Cancer, not working, zero funds and a single mother of an eight year old. My landlord kept trying to evict me and telling me I needed to move out but I didn't and I'm grateful for the SERA program and all they've done." ~ Tenant
