***The SERA2 Program is utilizing the Centers for Disease Control and Prevention’s (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.***
"Being on the brink of eviction with no where to go is an uncomfortable place to be. SERA stayed in contact, kept us updated and provided professional assistance from beginning to end. We are truly grateful for not only the SERA Program, but the SHRA/SERA staff too. Thank you." ~ Tenant
