Meals and Bed Nights:

Each week the on-site service provider reviews data and makes corrections. These corrections can only be reflected on the next report in the PYTD total.

Admitted Zip Codes

Week

PYTD

Previous Zip Codes:

The Guest self-reports in the Shelter Survey the location of where they resided prior to entry into the shelter. The individual zip code counts may increase/decrease without proper accounting from the prior weekly totals in the PYTD section. This is due to a delay in the verification of a Guest's prior address. Without a verified address the Guest is placed temporarily with a zip code tied to the area reported. Once an address is verified, the update is recorded on the next report.
