\*\*\*The SERA2 Program is utilizing the Centers for Disease Control and Prevention's (CDC) Social Vulnerability Index (SVI) which evaluates 15 social factors grouped by socioeconomic status, household composition and disability, minority status and language, and housing type and transportation to calculate the social vulnerability score to identify communities disproportionately impacted by COVID-19.

# SERA Spotlight

"SERA program has been a lifesaver for me and my children. Many nights I was stressed out praying not to be homeless. So worried about having to be homeless losing all of my things and or having to sleep in a car. They helped pay 9 months of all of my back rent that I owed to the landlord. I am so thankful, this is such a wonderful program." ~ Tenant
